

Help is
at hand

U can cope!
**How to cope when
life is difficult**

What do we mean by coping?

When life is difficult, it's important to be able to cope without feeling emotionally overwhelmed. Another word for this is 'resilience'. In other words, resilience is the ability to cope with upsetting or difficult life events and...

Be the best we can be

- deal affectively with difficulties
- become stronger and feel OK
- bounce back
- learn from mistakes and bad experiences and then be able to leave them behind.

We can improve our ability to cope. This leaflet will give you some ideas about how to do this.

Some things around us that can help our ability to cope and be resilient are

- thinking and learning about who we are
- having caring relationships with people
- knowing what to expect from others, and ourselves
- joining in with the people we live with, our friends and family, in school, college or work and in our local community
- knowing that people 'believe' in us.

Not all of us have everything in the list above, but we can still do things for ourselves to help our situation. It might be difficult to see how you could change some of these things for the better, but you can.

We can learn to understand and work through feelings of anger, sadness or rejection and get beyond them.

- **Learning who we are** and what we want from life.
- **Learning what we need** – knowing how to speak to others politely while still getting our message across, and knowing that what we do can make a difference.
- **Be interested in yourself!** – your feelings count, they are important and valuable, so pay attention to them!
- **Learning what we want to do** – the belief and understanding that our life has meaning and we can make a difference to other people and other things.
- **Developing a purpose in life** – having specific plans or dreams for ourselves.
- Trying to find ways to think positively so we can:
 - **Feel good about our future** – which is more likely to help positive things happen. It might be difficult to see how you could change some of these things for the better, but there are some tips in this leaflet for that. There are also things you can do within yourself...

These are some of the things about you that you could work on to develop your resilience and become good at coping with difficulties. These include practical things such as:

- make time to enjoy life and have fun!
- meet up with friends
- join a youth club or activity group
- have a hobby
- take part in a family activity you enjoy
- take part in sports or go for a walk with friends
- listen to music that makes you feel happy, play an instrument, 'air drums', sing
- watch TV, use a computer or play on a 'gadget' for a short time
- phone or text a friend
- read a magazine or book, or write something yourself
- look after a pet, walk a friend's dog
- be kind to yourself... find new ways to relax and have fun
- be kind to someone, help someone, just because you can...!! Nothing feels quite as good as knowing we have a purpose in life!

Look after yourself – act early

Get help if you feel that you are getting more worried. Try doing something you enjoy to help see you through. Write a 'worry list' of what's bothering you – break it down into small and manageable parts and tackle each one at a time.

If you are worried or sad, it may feel like a lonely time, but there are people who want to help you, even if just by listening.

Why not think about this BEFORE you have a problem?

- Keep a reminder of the people and things you love on your mobile or in your pocket, wallet or purse to remind you if you ever need cheering up.
- Make a list of people you trust who would want to listen and help you. Can you share your feelings with your Mum and Dad or your carer? Think about family, other trusted adults and friends you can talk to.
- Make a plan about who you can tell, if needed. Remember, we all need to talk about things sometimes. If we know who we can talk to before we need them, it makes it so much easier.
- Keep this leaflet in a safe place. You never know, you may be on someone else's list and this could help them to build their resilience.

Helpful suggestions to think about

- Thousands of people are overwhelmed every day but find ways to get through these intense feelings – like them, you can get through it.
- You just have to cope with one day at a time.
- Your distress can be a sign that you need to change something in your life.
- Keep this leaflet in a safe place. You never know when you, or someone you care about, might need it.

Support organisations for people who are distressed, are experiencing suicidal thoughts or who self-harm and their families

Anything you tell them will be completely confidential. The volunteers are ordinary people who won't judge you. Some of the most popular organisations are listed below. You may contact as many or as few as you like - it's up to you and it's OK to contact more than one.

PAPYRUS HOPELineUK:

Tel: 0800 068 41 41 (Mon to Fri 10am – 5pm and 7pm – 10pm & Weekends 2pm – 5pm).
www.papyrus-uk.org

PAPYRUS aims to prevent young people taking their own lives. A professionally staffed helpline provides support, practical advice and information both to young people worried about themselves, and to anyone concerned that a young person may harm themselves. PAPERUS has a range of helpful resources including HOPELineUK contact cards or call 01925 572444 or Fax 01925 240502 for a sample pack.

SAMARITANS

Samaritans:

Tel: 08457 90 90 90 (24/7); email:

jo@samaritans.org. www.samaritans.org

A 24/7 helpline service which gives you a safe space where you can talk about what is happening, how you are feeling, and how to find your own way forward. Samaritans volunteers are ordinary people from all walks of life who understand that there are sometimes things that you just cannot talk about to the people around you. They know that very often, with some time and space, people are able to find their own solution within themselves.

Specialist help for people who self-harm

The National Self-Harm Network:

Tel: 0800 622 6000 (7pm to 11pm).

www.nshn.co.uk

A forum and resources for those who self-harm and their families, and for professionals who support them. Tips on what to do or say and what not to do or say if you are supporting someone who self-harms. Advice on the use of distractions if a person is trying not to self-harm.

Get Connected:

Tel: 080 8808 4994 (1pm to 11pm).

www.getconnected.org.uk

Offers help by telephone and email for young people (under 25) who self-harm.

TheSite.org: www.thesite.org
