

List of supporting Letters to Stephen Timms from Labour MPs

Dear Dave,

I have written to Stephen Timms MP (Shadow Health and Safety Minister) in support of the Communication Workers Union's list of health and safety measures that they want to see from a future Labour government. In particular point 15 on the Mesothelioma Act, which is something which I will be working on with a number of Greater Manchester MPs, as it was an issue which my predecessor Paul Goggins MP had campaign on for a number of year. Finally, as the son of a construction worker and a building site labourer myself for a number of years, I understand at first hand the importance of health and safety at work and its role in protecting workers. As a Party of the working people I hope that we can do all we can to include these measures in our manifesto.

Yours sincerely

Mike Kane MP (Wythenshawe and Sale East)

Hi Dave

I certainly support the measures you outlined in your letter to Stephen.
I am sure a future Labour Govt will work with the trade union movement to improve health and safety for workers.
As a former bricklayer, I know how important H&S is, not least because I sustained an industrial injury myself.
When I was an apprentice I fell from a scaffolding because there was no safety rail.
I also know former railway workers in Derby who have contracted M Mesothelioma, some of whom have died, so
this campaign is vital.

Best wishes
Chris Williamson MP (Derby North)

Dear Dave

I am very happy to support the points made in your CWU Health and Safety Manifesto issues letter and have written to Stephen Timms registering my support.

Best wishes
Nic Dakin MP (Scunthorpe)

Hi Dave,
