## survey on work life balance in **02**

**The CWU believes that the provision of decent family friendly policies is essential for encouraging diversity, promoting equality and creating a happy and healthy workforce.**

That is why we are conducting a survey of 02 employees, in association with Middlesex University, to seek your views on work life balance.

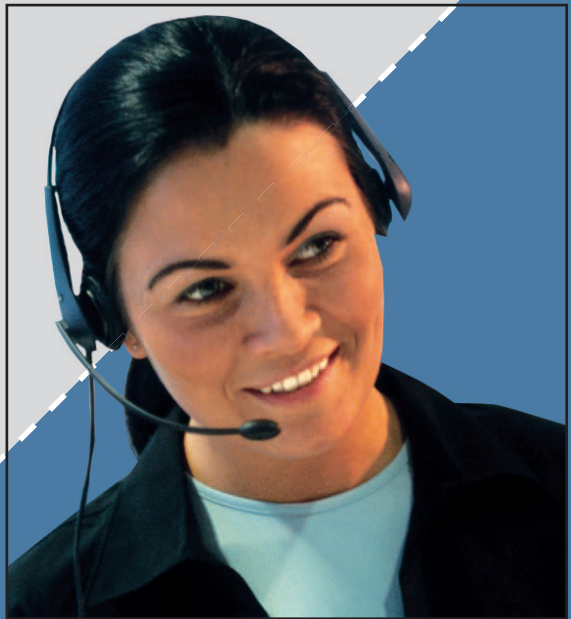

The survey is European wide, involving telecoms companies, retail organisations, banks and hospitals in eight European countries from Portugal to Finland. So as well as informing us about the experience in 02, it will give us a wider context in which to compare 02's approach to work life balance.

Our survey comes hot on the heels of a Sunday Times report that ranked 02 as one of the top UK employers in the 'best for well being' category. Does this match your experience?

We want to capture your views so that we can identify issues and work together with the company to resolve them.

The survey will be circulated in hard copy and electronic format. Please have your say and fill in a questionnaire.

**The final date  
for responses  
is July 20th**
